Postgraduate Continuum 2011

Orthodontics in Craniofacial Dysfunction

Prof. Dr. Sadao Sato

Prof. Dr. Sadao Sato is an internationally most recognized specialist in the area of orthodontics.

In 1971 he graduated from Kanagawa Dental College, Japan.

After having received his degree DDSc in 1979 he became Assistant Professor in Kanagawa Dental College. In 1989 Associate Professor and since 1996 until present he has been Professor in Kanagawa Dental College (Orthodontics).

Between 1991 and 2001 Prof. Sato was President of Japan MEAW technic and research foundation. From 1992 onwards until today he has been Member of the Angle Society of Orthodontists.

In 2009 Prof. Sadao Sato was appointed as Dean of Kanagawa Dental College.

Prof. Sato has been Visiting Professor in Austria for nearly 10 years now.

Course subjects in detail:

Part 1 Theories and Concepts of Malocclusion and Fundamentals in Orthodontic Practice

- 1 Developmental characterization of malocclusions with prognathic mandible. Cephalometric analysis of craniofacial complex
- 2 Dynamic aspects of craniofacial complex and mandibular lateral displacement malocclusion (MLD). Functional cephalometric analysis.
- 3 Developmental characterization of malocclusions with retrognathic mandible. Bracket positioning, wire bending practice, treatment mechanics in malocclusion treatment.
- 4 Occlusion concept of sequential functional guidance and application to orthodontic treatment. Case analysis, diagnosis, treatment planning
- 5 Orthodontic treatment of malocclusions with craniomandibular dysfunction. Wire bending practice, MEAW bending
- 6 Orthodontic treatment of crowding malocclusion without premolar extraction. MEAW adjustment, tip-back bend, step bend and torque control

Part II Concepts of Malocclusion and Treatment of Malocclusion Patients

- 1 Edgewise appliance and treatment procedures
Case presentation, diagnosis and treatment planning
- 2 Posterior discrepancy and terminal molar extraction
Case presentation, diagnosis and treatment planning
- 3 High angle malocclusion versus low angle malocclusion
Case presentation, diagnosis and treatment planning
Progression of treatment
- 4 Problems in premolar extraction treatment
Case presentation, diagnosis and treatment planning
Progression of treatment
- 5 Orthodontic and prosthodontic combination approach to complex cases
Case presentation, diagnosis and treatment planning
Progression of treatment
- 6 Importance of occlusal plane in orthodontic treatment of malocclusion
Case presentation, diagnosis and treatment planning
Progression of treatment

Summary and examination

Special Patient treatment

- All students / participants are asked to present a certain number of their own patients' cases during the course.
- It is agreed that course students bring their patients to the course, in order to get support in the respective treatment under the guidance of the course director.
- The treatment will be conducted at the student's personal responsibility in the premises of the Dr. Wilhelm Brenner Institute of the Dental Chamber of Vienna.
- All materials for the treatment (brackets, wires, etc) need to be ordered by the course participants at own costs.
- Support and control before and during the treatment is included in the course fee.

Signature

Terms and Conditions:

1. Once registered in writing you will receive a written confirmation and the invoice for the course fee.
The number of participants is limited. In case the course is fully booked you will be informed accordingly.
2. After having sent the application, the registration is binding upon the applicant, who at the same time agrees to the terms and conditions.
VieSID enters liability after having received full payment.
3. The course fee is to be paid promptly by bank transfer.
The course fee includes all scripts, material and necessary equipment during the course lessons.
4. The course fee does not include any travel and accommodation costs.
5. Deregistration from a course may only be made in writing and lead to cancellation fees:
Until 30 days before the start of a confirmed course: a handling fee of Euro 50,- + VAT will be charged.
In case of no-show without prior deregistration the cancellation fee is 50%.
It is possible to register a stand-by person or for a new date.
6. In case of a short-term cancellation of a lecturer, the participants will be informed promptly. Therefore we kindly ask you for your private/mobile phone number.
VieSID reserves the right to: make alterations in the team of lecturers, change time or location of a course, postpone or cancel a course, and make changes to the course program.
7. A minimum number of participants is required for each course. VieSID reserves the right to cancel or postpone a course due to not having reached the minimum number of participants until 2 weeks before the course date.
All payments of course fees will then be refunded completely. Any further demands or indemnification claims are precluded. VieSID is not liable for any related costs arising from the cancellation.
8. These Terms and Conditions are governed by Austrian law and any legal disputes shall be settled by the Austrian courts having subject-matter jurisdiction.
