

VieSID Summer School 2025 - "A Journey through the Rehabilitation of Occlusion"

	Wed, 23 July 2025	Thu, 24 July 2025	Fri, 25 July 2025	Sat, 26 July 2025	Sun, 27 July 2025
	Rehabilitation in the light of the principles of occlusion medicine	In analog as in digital dentistry: High standards and control	The past and the present of dental function	Interceptive Orthodontics	Table Clinics
	S. Sato	M. Assis	C. Fornai / K. Parlett	P. Kokkinos	
08:30-08:45	Registration opens at 07:45				
08:45-09:00	Greetings	C Slavicek & T Haberl - Camera-based axio-pantography: pros, cons and innovations, 60 min	T Kaiser - Function and evolution of occlusion, 60 min	P Kokkinos - Interceptive orthodontics: why, when and how, 60 min	
09:00-09:15	S Sato - Slavicek R. the concept of stress management and occlusion medicine, 90 min	JD Orthlieb & S Felenc - OCTA digital concept, 60 min	R Sarig - The rising prevalence of dental diseases in the modern world: An evolutionary perspective, 60 min	A Londoño - Following nature for orthodontic early treatment, 75 min	S Sato - Establishing occlusal support in occlusion treatment, 45 min
09:15-09:30					C Betzl - Planning functional rehabilitation: Cookbook or principles?, 45 min
09:30-09:45					
09:45-10:00					
10:00-10:15					
10:15-10:30					
10:30-10:45	Break	Break	Break	Break	
10:45-11:00					
11:00-11:15	C Basili et al - Occlusion and brain function: A new frontier in occlusion medicine, 100 min	A Nagy - All about control condylography. How to ensure you're on the right path, 60 min	B Mizrahi - Temporary restorations - The key to success in full mouth rehabilitation, 90 min	F Ogliara & F Logreco - Interceptive orthodontics based on the Slavicek's and Sato's principles using the functional position overlays (FPO), 60 min	JD Orthlieb - When to change occlusion? No dogmatic proscription, no systematic prescription, 45 min
11:15-11:30					
11:30-11:45					
11:45-12:00		P Vergara - Surgical and biomechanical strategies to prevent canine transmigration, 60 min		X Zheng - Vertical control in mixed dentition for Class II malocclusion with eruption guidance technique, 45 min	EAT & LEARN Poster presentation & discussion (A. Marniere)
12:00-12:15					
12:15-12:30					
12:30-12:45	Round Table				
12:45-13:00					
	Function-driven oral rehabilitation	Complex cases		Biomechanics in Orthodontics	Interdisciplinary Dentistry
	I. Tester	D. Togni		A. Londoño	X. Rausch-Fan
13:00-13:15	LUNCH BREAK	LUNCH BREAK	ENJOY VIENNA!	LUNCH BREAK	J Kostrzewska-Janicka et al - The use of a stabilizing occlusal splint in primary headaches – a preliminary report, 30 min
13:15-13:30					D Storino - Maxillary Development System (MADS) for maxillary deficiencies in mixed dentition cases, 30 min
13:30-13:45					M Ivchev - Multidisciplinary approach to complex dental case management, 30 min
13:45-14:00					N Morariu - A complex clinical case found a fast and simple solution with the Slavicek-Sato concept, 30 min
14:00-14:15	M Assis - Advanced functional geometry, 90 min	O Ahlers - Functional analysis including condylar movement analysis in complex clinical cases, 75 min			G Osipov et al - Integration of digital solutions in complex patient rehabilitation in the concept of R. Slavicek, 30 min
14:15-14:30					
14:30-14:45					
14:45-15:00		Break			
15:00-15:15		P Kokkinos - The happy ending story of a mandibular condyle, 30 min			
15:15-15:30					
15:30-15:45	Break				
15:45-16:00	E Piehslinger & A. Skolka - Occlusal splints – A useful tool in the daily practice, 20 min				
16:00-16:15					
16:15-16:30					
16:30-16:45		R Marino & F Logreco - White anatomic splint: an intermediate solution between traditional splint and provisionals, 60 min			
16:45-17:00					
17:00-17:15	C Betzl - What to do after splint therapy? How to restore the gap wisely, 60 min				
17:15-17:30					
17:30-17:45					
17:45-18:00					
				19:00 Get-together dinner with live music
